

## Principal Corner – February 2017

Dear St. Brendan school families and alumni –

Last month we announced completion of our three-year strategic plan for St. Brendan Catholic School. This plan was designed to shape our future and clearly articulate a path for the overall success of our students in both academic achievement and faith formation. We are dedicated to faithfully executing on this plan over the course of the next three years, and maintaining transparent communication with our community about progress toward meeting our ambitious goals.

One of our overarching goals was to increase the opportunities for philanthropic support from all school constituencies. In particular was an effort to pursue grants and other revenue sources for school improvement purposes. I am incredibly proud to announce that we have received our first grant in the amount of **\$11,738.00** from the Fulcrum Foundation for a 21<sup>st</sup> century classroom modernization project. This project also meets another plan goal for ensuring the building provides a maximal learning environment for our students. I want to thank Mrs. Christen Lambert for her work on writing this grant, and to Ms. Harris for allowing us to convert her classroom space. Reconfiguration of Ms. Harris's classroom will begin as soon as possible.

As we move forward, it is my expectation to aggressively pursue revenue sources that will position St. Brendan Catholic School as a premier educational institution in the area, and one sought out by families wanting the best education and faith formation for their children.

Peace,

Brian Bradish  
Principal

*"Entrust your works to the Lord, and your plans will succeed" ~ Proverbs 16:3*
